

## **Safetyman's Safety Solutions**

Master Degreed Safety Consultant with 30 years safety & emergency planning experience can help your organization with safety & safety maintenance issues. I also can train your employees on a wide variety of safety topics. Items I can help you with (but not limited too):

CPR/AED and 1<sup>st</sup> Aid certification

Safety/OSHA compliance issues

MPCA regulations

Safety Policies

Emergency Management planning and training

Personal Protective Equipment training and Respirator Fit testing

Fire prevention and life safety inspections

If you have safety needs, just call me and we can discuss to find you a workable affordable solution.
